Friends of Ohio Theatre receive check toward restoration effort

BY MARK CAMPBELL

The Ohio Theatre has been an iconic part of downtown Madison for more than 80 years, but it has become increasingly decayed in recent years, especially after a fire damaged the building on June 28, 2018.

But there are plans to return the theater to its former glory and then some, and that process took a significant step forward Thursday when Friends of the Ohio Theatre, the non-profit entity that owns the Main Street structure, received $250,000 from the City of Madison Redevelopment Commission as part of a Stellar pledge the City of Madison made toward the estimated $3.2 million theater project.

"We're very excited" about how this Stellar designation funding will begin the work toward bringing the Ohio Theatre back, said Elizabeth Auxier, president of Friends of the Ohio Theatre, who said the money will be used on masonry work, replacing the roof, and installing a new Heating Ventilation and Air Conditioning (HVAC) system.

"The Ohio Theatre is iconic in many ways," Madison Mayor Bob Courtney said. "Supporting the restoration of the Ohio Theatre is important to the entire fabric of Madison and Jefferson County. It is significant to

A project by Friends of the Ohio Theatre to restore the iconic downtown movie house got a boost Thursday with the presentation of a $250,000 check by the Madison Redevelopment Commission through the city's Stellar Community program. Those at the presentation included (from left) Madison City Director of Planning Nicole Schell, Mayor Bob Courtney, Madison Main Street President Randy Lakeman, Madison Economic Development Executive Director Matt Wirth and Friends of the Ohio Theatre President Elizabeth Auxier, Vice President Charles Requet and Board member Dan Slygh.

MCS to use relief funds to upgrade Deputy HVAC

BY BOB DEMAREE

Deputy Elementary School will soon be a more comfortable and safer space for students, faculty, staff and visitors following a decision by the Madison Consolidated School Board to undertake a complete renovation of the building's Heating Ventilation and Air Conditioning (HVAC) system.

"Currently the classrooms in this building do not allow for any outside air to enter, which does not meet current code requirements nor does it do anything to improve air quality in relation to illness-causing particles," said Madison Superintendent Dr. Jeffrey Studebaker, who noted the project will allow for outside air to be used in the classrooms and would also include air conditioning for the gymnasium.

Because the focus of the project is to improve air quality, Studebaker said it is permissable to use ESSER II (Elementary and Secondary School Emergency Relief Funds) funds that Congress has provided financial support to districts and schools to address the ongoing impact of the COVID-19 pandemic. Studebaker said the current HVAC system at Deputy Elementary School had been installed in the 1980s.

The board approved an energy-savings contract of $794,927

County seeking agreement with city on waste transfer

BY BOB DEMAREE

When Jefferson County got into the trash pickup business in March after years of contracting for that service, the plan was to save money but part of that effort depends on County Commissioners reaching an Interlocal Agreement with the City of Madison to use its waste transfer station.

The Commissioners approved that proposal Thursday but it still needs Madison City Council approval.

Under the proposed plan, Commissioner president David Bramer said the county will take trash collected at six locations throughout the county to the city's transfer station at a rate of $62 per ton — the same rate the city charges for other trash brought to the hilltop station. In addition, should the county's garbage truck experience mechanical issues and be unable to do pickups, the city would supply a driver and a truck on a temporary basis at a cost of $75 per day, Bramer said.

On Monday, there was issue in which county trash was not picked up. Commissioner Bobby Little said that was because no driver was available for the truck used to pick up the trash. Little apologized for the inconvenience and explained it was a situation in which they were unable to sufficiently notify the affected county residents. "Hopefully that will never happen again," said Little, noting the interlocal agreement could possibly cover them in the future.

The county's trash service had been handled by Rumpke Waste and

Plan Commission OKs request for church on Megan Lane

BY MARK CAMPBELL

Madison's Plan Commission on Monday gave approval to the New Heart Church of God Madison to combine two lots in the 400 block of Megan Lane into a 2.5-acre site where the congregation will build a 60-foot by 120-foot church with parking for about 60 vehicles.

The congregation currently meets at 209 East Main Street in downtown Madison but the plans are to build a new church just behind Frisch's and German American Bank at 443 and 449 Megan Lane just off Clifty Drive. The structure has an estimated cost of about $200,000, according to the application filed with the City of Madison.

Pastor Jim Wilson and about 20 members of the congregation attended Monday's meeting to ask for approval to combine the lots into one larger tract. The Plan Commission unanimously approved the request.

In other business, the Commission also heard a request by Pettitt & Associates of Hanover to combine and then subdivide four lots in the 1000 block of East First Street in downtown Madison to develop a new subdivision overlooking the Ohio River on the east end of the city.

The lots to be combined are owned by Bernard Johnson and Anthony Hammock and include 1010, 1016, 1022 and 1030 East First Street just north of Fillmore Street.

Jefferson reports 80th death related to the coronavirus

BY COURIER STAFF REPORT

After moving Wednesday into the "Yellow" advisory level on the Indiana Department of Health's metrics for COVID-19 spread, Jefferson County reported one new death attributed to the 13-month-long pandemic.

On Friday, Jefferson County's death total increased to 80. In all, the county has had 3,121 positive cases of COVID-19, an increase of seven from the previous day. Jefferson County's seven-day positivity percentage is currently 5.8% and the unique positivity rating is 19.2%.

According to Madison Mayor Bob Courtney, the majority of the county's new cases stem from the Jefferson County Jail and the Madison Correctional Facility, where both facilities have reported multiple cases of the coronavirus and have taken steps to isolate from the public.

"It's not the general public," Courtney noted. "The number of cases hospitalized is very low in Madison and across the entire 12-county district we are a part of."

Courtney urged local residents to continue to get tested for the virus — both for their protection and so that positivity numbers are not inflated by results based on a smaller cross section of residents — as the community seeks to "avoid unnecessary policy restrictions" moving forward.

The Indiana Department of Health announced Friday that 1,327 additional Hoosiers have been diagnosed with COVID-19 through testing at state and private laboratories. That brings to 704,632 the number of Indiana residents now known to have had the novel coronavirus. To date, 12,803 Hoosiers are confirmed to have died from COVID-19, an increase of 14 from the previous day.

In Kentucky, 834 new cases of COVID-19 were reported on April 15, according to the Kentucky Department of Health. There have been 435,743 positive cases overall and 6,302 deaths including 17 new deaths.

WASTE

FROM **PAGE A1**

Recycling for many years, but the county assumed control in March after it bought a truck and hired a driver. Little said the county stands to save about $150,000 by taking over the service and keeping it in house.

In other business:

• Jefferson County Building Inspector and ADA Coordinator Josh Cline presented the Commissioners an updated ADA Transition Plan. "We had not had much of a plan before," said Cline, "and we needed to get one in place to have somewhere to go to." The document is a planning and implementation guide for Jefferson County for the commitment to the development, maintenance and inclusion of policies, programs and facilities related to the Americans with Disabilities Act.

• Commissioner Ron Lee provided an update on a meeting to discuss future uses for the current county jail after the new Jefferson County Sheriff and Justice Center is completed. In a meeting held earlier on Thursday, there was discussion about possibly providing education and training in the current jail facility. There had been previous talks about using the current jail as a substance abuse treatment center, but there were concerns raised about the suitability of the facility for that. Lee noted discussion will continue as they sort out the best plan for future uses for the current jail while also providing adequate facilities to help those dealing with substance abuse. The next meeting will be 3 p.m. on Thursday, May 20, at the Jefferson County Public Training Center, 620 Green Road.

• Steve Meyer, board member of the Southern Indiana Regional Development Authority, was at the meeting to inform the Commissioners about proposed legislation to provide about $150 million for regional development. Meyer said he has "never seen as much enthusiasm as we did at our last meeting" because they have been working toward regional economic development in Clark, Floyd, Jefferson, Scott and Washington counties without any funding, and he said "there are real possibilities for RDA" and what can be accomplished.

Located partially in the flood plain, once combined the property would then be subdivided into seven building lots for single family homes possibly similar to the two-story shotgun-style homes built recently on similar terrain in other areas downtown.

Several adjoining property owners attended the meeting to voice concerns over the number of lots, where access roads would be located and on who's property and whether Fillmore Street and East First Street were even wide enough to accommodate fire and other emergency vehicles should the area become more congested with housing.

In the end, the Commission took no vote but agreed to study the application in greater detail with the presentation and opposition voiced Monday taken under advisement.

The Board of Zoning Appeals met shortly after the Plan Commission on Monday, with conditional use permits approved on several renewal applications while an ongoing dispute between two property owners in the 800 block of West First Street over an application seeking to extend and enclose a deck was tabled and an application to subdivide a portion of 1938 Michigan Road into three triplex units was withdraw.

Owners Rich and Sallie Plass, 811 West First Street, are seeking to extend and partially enclose the deck of their town home that shares an adjoining exterior wall with owners Randy and Jacqualyn Eggenspiller, 813 West First Street. The Eggenspillers are opposing that application and brought an attorney and an expert witness to Monday's meeting to help make their case.

The Board voted unanimously to table the application until next month to allow the applicants to appear with their own expert witness should they choose to do that.

The other application, filed by Victoria Demaree with local real estate agent John Demaree presenting, seeks to divide a house and lot located at 1938 Michigan Road with about a one-fourth-acre portion of the lot then used to construct three triplex homes overlooking Sunrise Golf Course just north of the green No. 16 and fairway No. 17.

Dave Poling, 2000 Michigan Road, spoke in opposition to the application and Board of Zoning Appeals members noted that the application exceeds their authority in that the request was more of a zoning charge than a conditional use permit. In the end, Demaree asked that the application be withdrawn.

Mistakes many business owners make when selling their business

"The best time to plan your business exit is when you first start your company."
–Stephen Dybwad

Layin' It on the Line

Even for those who love their businesses and aren't that excited about retiring, most will need to leave at some point. Most business owners have, at best, only a vague idea of how to plan their exits properly. Or they make assumptions about their financial futures that may or may not be valid.

Over the years, I have seen business owner clients make many costly mistakes when creating their transition blueprints. Here are five of the most typical errors I see when I review exit strategies for my self-employed and small business owner clients.

<u>It would be best if you avoid these common mistakes made by other self-employed people:</u>

They are failing to plan at all. Most business owners have only a superficial idea of how they want their business succession to play out. While retirement consultants consider exit plans essential, only around 52% of businesses have one. When you factor in self-employed professionals like dentists and doctors, along with mom-and-pop type companies, that number drops even lower. Businesses with written exit plans often fail to update them regularly and are relegated to back-burner status.

They are making too many assumptions about the exit process. Most business owners make a lot of assumptions when it comes to the succession process. For example, many professionals and entrepreneurs assume that they will be able to sell their companies or practices quickly and easily at the perfect time when the market for their particular industry is "hot." Or, they assume that someone in their family, a son, daughter, or grandchild, will want to run the business after they retire. Even if a family member does want your business, they may not have the qualifications or skillsets to run it successfully. It's a sad fact the majority of family-owned businesses do not make it past the third generation.

Many business owners are "too busy" to prepare. When I talk to small business owners, it always amazes me how many of them are poorly organized, with messy financial records. Often, they cannot locate critical documents, insurance policies, tax records, or receipts. To create an efficient transition plan, a high degree of organization is necessary. Otherwise, you risk overlooking critical data that can turn your transition into a nightmare instead of a smooth, efficient process.

They are failing to include their spouse and family in each stage of planning. An owner's decision to exit their business involves their employees, vendors, and support staff. This occurrence also directly impacts their spouses and families. As you sit down with your business exit strategist or financial advisor, you want to include all affected parties in the conversation. Your plans for retiring from the business should never surprise the important people in your life.

There's often a failure to allow for the time it takes to exit successfully. Some people think that leaving their company will be as simple as putting a **For Sale** sign in front of the business, listing it with a business broker, or taking out a social media ad. The reality is that it takes time to assemble a team of CPAs, attorneys, retirement and income planners to ensure you get the best possible outcome. It will help if you don't plan your transition haphazardly or when you are in emotional distress.

Summing it up. If you are self-employed professional or small business owner, you should begin putting your succession plan together as soon as you can. When you have an established, written course of action before circumstances force you to exit, you will make better decisions when the time comes. You will be able to avoid many of the headaches associated with retiring from a small company.

HANOVER ROUNDUP

Hanover College

Unbeaten Panthers awarded HCAC football title

BY COURIER STAFF REPORT

Hanover College football was awarded its third-straight Heartland Collegiate Athletic Conference championship Wednesday after the team's season officially came to an end.

Hanover was scheduled to close out the abbreviated spring season with a trip to Anderson today, but the game was canceled by Anderson. Hanover finished the campaign with a 4-0 mark with wins over Defiance, Bluffton, Rose-Hulman and Franklin. A game against Mount St. Joseph was switched to a controlled scrimmage and games against Manchester and Anderson were canceled.

Prior to the season, the HCAC administration and coaches agreed to recognize a conference champion following the completion of the season, requiring that a team play at least 50% of its schedule. Hanover finished the season as the only unbeaten team in the league.

SOFTBALL SWEEPS ROSE-HULMAN

Hanover softball swept past Rose-Hulman at home on Thursday, winning 5-1 and 4-1.

Kendra Hutchison finished a home run short of the cycle by going 3-for-3 with two RBIs and two runs scored to lead the Panthers in the opener. Kensie Bradley had two hits and scored twice and Lily Beurman had a double and two RBIs.

Beurman (3-6) also picked up the win in the circle after striking out 11, walking one and not allowing an earned run in seven innings.

Beurman had two hits including a double to lead Hanover in the game two win. Katherine Dickinson had a hit, an RBI and a run scored and Rachel Cox had a hit and two RBIs.

Courtney Chookie (3-3) picked up the win after giving up one earned run on five hits in five innings. Beurman picked up her second save of the season after two scoreless innings in relief.

Hanover, now 6-11 on the season, travels to Anderson for two games today and then hosts Bluffton for a pair next Saturday.

BASEBALL ROLLS OVER MOUNT

Hanover cranked out five extra-base hits as the Panthers rolled over Mount St. Joseph 9-1 in baseball Wednesday in Cincinnati.

Alex Christie hit a home run and doubled while going 4-for-5 with three RBIs and two runs scored for the Panthers. Charlie Burton was 3-for-3 with a double, an RBI and a run scored, and Connor Farnsley and Cole Sherman added doubles for the Panthers.

Justin Pope (1-2) allowed just one run on six hits in eight innings with five strikeouts to pick up the win for the Panthers. Cooper French worked a scoreless ninth.

Hanover, now 14-11 overall, hosts Anderson for two games today and heads to Rose-Hulman for a pair on Sunday.

MEN'S LACROSSE WHIPS MOUNT

Hanover men's lacrosse had little trouble with Mount St. Joseph, rolling to a 17-2 win at home on Wednesday.

The Panthers out-shot Mount 65-16 in the game and forced 28 turnovers. Hanover was also 34-for-39 on clears and picked up 61 ground balls.

Ian Kimmins had four goals and three assists for Hanover, while Jackson Wheeler had three goals and an assist, and Josh Perkins and Eric Hopkins each had three goals. Sean O'Meara stopped three shots in 42 minutes in goal to pick up the win.

Hanover, now 4-3 on the season, hosts Earlham today.

WOMEN'S LACROSSE FALLS TO TRANSY

Hanover women's lacrosse lost 18-7 at Transylvania on Wednesday.

Taylor McNally-Henriksen scored three goals to lead the Panthers while Milah Young had two goals and an assist. Masi McNally-Henriksen had a goal and two assists and Anne Breeding had a goal for Hanover.

The Panthers, now 1-4 on the season, host Mount St. Joseph today and head to Anderson on Tuesday.

SOFTBALL ROUNDUP

Southwestern's Morgan Mahoney is all smiles as she rounds the bases after hitting a 3-run home run in the Rebels' win over Shawe on Wednesday.

Pacers' Sparks strikes out 19 in no-hitter of Milan

BY COURIER STAFF REPORT

Switzerland County junior Lily Sparks recorded one of the most dominating pitching performances in local history Wednesday while no-hitting Milan 8-0 at home in softball.

Lily Sparks

Sparks (5-0) struck out 19 and did not walk a batter while facing only two over the minimum. The only baserunners to reach against Sparks did so on an error and a hit batter.

Switzerland's offense made sure Sparks didn't have to labor. The Pacers scored a run in the first and three more in the second to take control and never look back.

Freshman Hailey Sainz had two hits and scored a run for the Swiss while Jessie Duvall had a double, an RBI and scored three runs and Kierstan Oeffinger had a double and scored twice. Maddie Duvall added a hit and two RBIs.

Switzerland, now 5-0 overall and 2-0 in the Ohio River Valley Conference, hosted Shawe on Friday and hosts Providence on Tuesday.

REBELS ROLL PAST SHAWE

Southwestern softball hammered Shawe 25-0 for its first win of the season on Wednesday then split a doubleheader with New Washington, losing 7-6 and winning 12-7, on Thursday.

The Rebels pounded out 25 hits and rolled over Shawe 25-0 on Wednesday. Morgan Mahoney hit her first home run of the season and was 4-for-4 with seven RBIs and four runs scored to lead the charge. Halee Smith was 4-for-5 with a double, five RBIs and two runs scored, Olivia Bruce was 3-for-3 with a triple, four RBIs and three runs, Ashley Fulton was 3-for-4 with three doubles, an RBI and four runs, and Abby Fulton was 2-for-3 with two RBIs and four runs.

That was more than enough offense for Ashley Fulton to pick up the win. The freshman southpaw allowed only two hits — singles by Kira Wells and Sylvia Heath — and struck out nine while not walking a batter.

DeAtley, Mefford throw 1-hitter in Southwestern blank of Shawe

BY COURIER STAFF REPORT

Jordan DeAtley and Foster Mefford teamed up to throw a 1-hit shutout as Southwestern posted a 13-0 win over Shawe in baseball Wednesday at Madison.

DeAtley went the first four innings on the hill and allowed only an infield single to Philip Kahn while striking out five batters. Mefford made his first appearance on the hill and struck out three of the four batters he faced.

Southwestern scored five runs in the first inning to take control of the game and ended it after five on the mercy rule. The Rebels had nine hits — all singles — against a trio of Shawe pitchers with Jackson Stockdale going 2-for-5 with five RBIs and a run scored and Landon DeAtley going 2-for-3 with two RBIs and two runs scored. Brady McLain had a hit and drove in two runs.

Jacob Hertz started for Shawe and took the loss after giving up seven runs — five earned — on four hits in three innings with six walks. Hunter Kennett and Christian Whitham each pitched an inning on the mound.

Shawe, now 0-2 overall and in the Ohio River Valley Conference, traveled to Switzerland County on Friday and is at Jac-Cen-Del today. The Hilltoppers travel to Rising Sun on Monday.

Southwestern, now 6-1 overall and 2-0 ORVC, hosts Class 2A No. 5 South Ripley on Monday.

COLUMBUS EAST ROUTS MADISON

Madison was limited to just two hits as the Cubs fell 14-0 to Columbus East at home on Wednesday.

Madison, which opened the season with eight-straight wins but has now lost back-to-back games against Hoosier Hills Conference opponents, managed just a pair of singles by Zander Vonch and Myles Barnes against East starter Harry Major, who struck out five in four innings of work.

Drew Forner (2-1) took the loss for Madison after allowing 11 runs on six hits in three and a third innings on the hill. However, due to Cub errors, only one of the runs allowed was earned.

Madison, now 8-2 overall and 0-2 in the HHC, heads to Lanesville for a pair of games today and then hosts Switzerland County on Monday.

MILAN RALLIES TO BEAT SWITZERLAND

Milan rallied with eight runs late to knock off Switzerland County 11-7 in baseball Wednesday in Vevay.

The Pacers took a 5-3 lead into the fifth inning when Milan scored five times to take the lead. Three more runs in the sixth allowed the Indians to pull away.

Dakota Wallace went 2-for-2 with his first home run of the season, two RBIs and two runs scored to lead Switzerland. Bryce Turner was 2-for-4 with a triple, an RBI and two runs scored and Kaleb Koons had a hit and an RBI.

Koons (0-1) allowed three runs on four hits in four innings and took the loss for the Pacers. He struck out two and walked four.

Switzerland, now 0-5 overall and 0-3 in the Ohio River Valley Conference, hosted Shawe on Friday and heads to Madison on Monday.

Trimble softball rallies late to beat Carroll, 10-5, in all 'A' tourney

Liter, Wilcoxson each homer in comeback win

BY COURIER STAFF REPORT

Rachael Liter and Shelby Wilcoxson each homered to lift Trimble County to a 10-5 come-from-behind win over Carroll County in the semifinals of the All "A" Classic Eighth Region Softball Tournament Wednesday at Eminence.

Carroll took a 5-2 lead into the fifth inning when the Raiders erupted for eight runs over the next two frames to claim the win.

Liter opened the fifth with a solo home run, her first of the season, and was followed by an RBI triple by McKenna Ritchie and a run-scoring single by Maddie Nixon to tie the game.

Trimble then scored five times in the sixth, highlighted by a Wilcoxson grand slam, to seize the win.

Ritchie (4-1) also had a double at the plate and picked up the win in the circle after striking out 15 and walking none while allowing just one earned run.

CARROLL, TRIMBLE NO-HIT BY WALTON

Walton-Verona breezed through Carroll County and Trimble County on a pair of no-hitters to win the All "A" Classic Eighth Region Baseball championship this week.

The Bearcats' Nick Allen struck out 14 and walked three to fire a no-hitter at Carroll County in the semifinals on Wednesday. Walton-Verona collected 11 hits of its own in the 11-0 win.

Evan Kerns equaled the feat in the championship game against Trimble County on Thursday. Kerns struck out seven and walked four as Walton-Verona picked up the 13-1 win. The Raiders' only run came in the fourth when J.T. Wilcoxson walked and eventually stole home.

Andrew Shaw (1-3) started for Carroll County started on the hill and took the loss after allowing four runs — just one earned — on four hits in two innings.

Bryce Rose (0-3) got the loss for Trimble after giving up 13 earned runs on 11 hits in five innings.

Smile!

ANNIE **LANE**
DEAR ANNIE

Dear Annie: I notice many readers have problems and anxieties. Maybe something my mother taught me will help them.

She lost two husbands to illness and had a chronic illness herself. We almost lost my brother on the same day my dad died. She raised three boys in a small town taking any job available. Through all these hard times, she always found something to make us laugh. People loved her laugh and smiling face. There is a fine line between laughing and crying, of course. I know she crossed it many times, but few knew.

I was married for 62 years. Our disagreements were short-lived because one of us would make the other laugh. There is a side benefit to this type of lifestyle. When she died at age 82, neither of us had any wrinkles.

In business, I printed small yellow cards with the word SMILE and gave them away. Many people told me they put it on their bathroom mirror and always started their day with a smile.

Whatever your problem is today you won't remember it in six months. Why ruin a beautiful day feeling miserable. There are other things to think about. If life deals you a hard blow, and you don't know what to do, remember this.

You don't drown by falling in the water; you drown by staying there. — Larry T.

Dear Larry: Thank you for the big smile and big perspective. I'm grateful to people such as yourself, who find little ways to make the world a brighter place.

Dear Annie: About one year ago, I ended my very first relationship. We were together for about six months. He was a horrible boyfriend, but that was only the beginning of it. He sexually violated me the entire time we were together. He didn't listen to a single thing I asked him to either do or not do. He would kiss me even when I told him I didn't want to kiss him, sit close by me when I told him I wasn't comfortable with it, and touch my legs no matter what I did.

When it was happening, I pinned the blame on myself. I thought I was just scared to do all of this stuff because I'd never done it before. But now I realize it wasn't my fault.

I haven't seen or talked to him since I broke up with him. But since then, I've been tortured by the thought of him. Everything reminds me of him and makes me feel anxious. I told myself things would get better and in a month I'd be back to normal. But it's been a year and I still feel tortured remembering what happened. Every night, I'm scared to fall asleep because my dreams are filled with him sexually abusing me. What do I do? — Desperate

Dear Desperate: It is horrendous that your ex-boyfriend treated you so poorly. Intimate relationships are premised on the idea of feeling safe enough around one another to be vulnerable. He turned that on its head. I'm sorry this happened. But I promise you won't feel this way forever. With the help of the right people, you can process what happened, seek justice and begin to experience life again. Call the National Sexual Assault Hotline at 1-800-656-4673 or visit rainn.org to connect with trained specialists who can help you identify the next steps in the path toward healing.

ANNIE **LANE**
DEAR ANNIE

Dear Annie: I would like to comment on the letter you received about the daughter-in-law who is a people pleaser and wants her mother-in-law to like her. I am the granddaughter of a mother-in-law who was just like that. I grew up knowing my grandmother did not like my mom or any female who married into the family. I heard her say, "Your mother (insert backhanded compliment)," or, "I don't like your hairstyle; it looks like (insert name of aunt who married into the family)."

As a result, I suffer from severe depression and anxiety. I was never good enough. This behavior was also extended to several cousins who had a mom who was not my grandmother's biological child. I am now in my 50s, and the pain has not gone away. With therapy, it has lessened.

I would tell this wife and mother to stop. Her mother-in-law obviously does not want a relationship. I am sure she would not want the behavior that the mother-in-law is exhibiting to be extended to her children.

She should count herself lucky that this toxic woman does not want to be in her life. Sadly, my grandmother did not have any type of relationship with my children and could never understand why I did not have unwavering adoration for her. — Outlawed In-laws' Daughter.

Dear Outlawed In-laws' Daughter: How someone treats you says a lot more about how she feels about herself than it does about you. As Eleanor Roosevelt said, "No one can make you feel inferior without your consent." Don't ever give your unhappy grandmother your consent for her to make you feel inferior. Giving backhanded compliments or making petty comments about someone's hairstyle never truly feels good on the inside. My hunch is that when these difficult mothers-in-law put their heads down on the pillow at night after being so mean to all the females in their lives, they have trouble sleeping or even just living a joyful life.

Don't ever give your unhappy grandmother your consent for her to make you feel inferior.

Continue to work with your therapist on your depression and anxiety. And always remember that you are enough. The purpose of life is not to be perfect; the purpose is to enjoy the ride.

MADISON BEATS RIPLEY IN 8

It took eight innings but Madison pulled out a 6-3 softball win over South Ripley Thursday to end the Cubs' three-game losing streak.

Kallie Eder hit a two-run double and then later scored on a passed ball in the top of the eighth to give the Cubs the lead. Pitcher Immi Mann gave up a leadoff single in the bottom half then slammed the door to finish off the win.

Mann (3-6) struck out 11 and walked only one while pitching all eight innings to get the win. She allowed three runs, but none were earned as Madison's defense again struggled, committing two errors.

Mann also hit a home run, her second of the season, and had two RBIs. Younger sister Cam Mann was 4-for-4 with three runs scored, Eder was 2-for-4 with three RBIs, and Patty Johnson added a hit.

Madison, now 4-7 on the season, played Batesville on Friday at home and travels to New Washington on Monday.

THEATRE

FROM **PAGE A1**

Main Street business, local tourism efforts, historic preservation and our quality of life in the community.

"This is the first non-profit grant made by the City of Madison Redevelopment Commission which not only emphasizes the importance of this project, but our commitment to promoting economic development investments across the city," Courtney added. "We are fortunate that the Friends of the Ohio Theatre are taking on such an important effort."

Friends of the Ohio Theatre plans to totally restore the theater to preserve Madison's cinematic heritage and create a community-supported, multi-use arts facility capable of hosting concerts, live theater conferences and other events. But to get there, they first must emphasize restoring the exterior and the HVAC. "Once we finish the exterior, we will focus on the interior," Auxier said.

"We have water leaks on the roof," she said, and they can't work on the interior until that is remedied. Auxier said the HVAC system currently is not functioning. "We are closed when it's too hot or too cold," she said, because they are unable to keep the building comfortable due a malfunctioning boiler that's been there since the 1970s.

Auxier said once work does begin on the interior it will be part restoration and refreshment.

"We plan maintain as much of the interior integrity as possible," which will include reopening the balcony that was closed off many years ago to create space for an upstairs theater. She said they also want to refurbish all the surfaces while engaging in a major technological overhaul that will upgrade the facility into a state-of-the-art venue.

Friends of the Ohio Theatre have also purchased the adjoining building at 103 East Main Street to provide upgrade and accessible restrooms and an area for food service and support. The building was designed with restrooms in its basement, requiring access by stairs that made the theater non-compliant with the Americans with Disabilities Act.

Auxier said Friends of the Ohio Theatre have hopes of opening the building in the fall for some events, but there is much work to do before the building will be fully functional. All of the seating has been removed due to mold and mildew and poor air condition. Auxier also said the theater screen was damaged in the fire.

Auxier said it will take a significant amount of money for Friends of the Ohio Theatre to complete the work that needs done and fundraising will continue as they seek donations, grants and all types of support to revive the facility.

Tony and Laura Ratcliff owned and operated the Ohio Theatre for two decades before declining ticket sales led to a closure on Feb. 29, 2016. Friends of the Library acquired the theater in March of 2016, with plans to revive the space, which opened as the Ohio Theatre on Oct. 4, 1938.

"We have a great group of volunteers" who are dedicated bringing the Ohio Theatre back, Auxier said, noting she is optimistic that with continued support from the community that goal will be achieved.

with Johnson-Melloh of Indianapolis in which the ESSER II funds will be used to pay for the project. "I am excited about this project," said board president Jodi Yancey, who noted "we have been talking about needing to do this, and I am excited that we are."

In other business, the board:

• Approved $94,317.95 to purchase weight room equipment and $91,980.16 to purchase weight room flooring from Sorinex Exercise Equipment Inc. as work continues on a new weight training room at Madison Consolidated High School.

"We got a system that is phenomenal," said Studebaker, who noted MCHS will have a fitness facility "to be proud, the best in southeastern Indiana." School board member Jay Roney, who himself owns and operates a local gym, noted that what can be achieved through the facility goes beyond just being a weight room. He said it will help students learn about goal planning and develop self-esteem. "Yes it's a weight room, but it's teaching kids, and hopefully encouraging them to live a healthy lifestyle. The kids deserve this, and I am happy to be their voice."

• Agreed to purchase Audio Enhancement systems for Lydia Middleton Elementary, Deputy Elementary and Rykers' Ridge Elementary. The system includes paging, intercom and bells as well as classroom audio for each teacher to use. The cost of the system, which is being purchased from Empower Learning of Indianapolis, is $219,309.53.

Studebaker noted the system distributes the teacher's natural voice throughout the room so that every student can hear better. Additionally, there is a built-in alert button on the transmitter that allows a teacher wearing the pendant microphone to discreetly send an alert for help.

He said upgrades are needed to the school audio systems. "Lydia Middleton's system is down more than it's on," he said, adding there have been issues with the systems at the other schools, too.

• Approved the purchase of Server Replacement Equipment from Five Star Technologies for $73,200. "We try to do this on a cycle," said Alex Hobson, educational technology coordinator. All current server hardware and software will be replaced.

• Approved purchase of a 36-month agreement for Cloud Services from Imaging Office Systems to replace the current Filebound System at a cost of $7,200. Hobson noted the Cloud Service provides more flexibility in storing necessary school corporation records.

• Approved purchase of new vehicle for the maintenance department — a 2021 Chevrolet 2500HD Silverado truck from Uebelhor and Sons Chevrolet of Jasper for $41,998.

• Approved a cost increase for the weekly rates for the preschool program, increasing full-time students $10 per week to $110 and increasing part-time students $5 per week to $80.

• Approved the summer school program which Studebaker said is anticipated to run June 1-11 from 8 a.m. to 11 a.m., for Kindergarten to Grade 7 students and June 1-18 from 8 a.m. to 3 p.m., for students Grades 8-12.

• Honored MCHS students that participated in the Indiana High School Athletic Association state swim championship — Carter Schutte, Justin Banks, Liam Roney and Jack Kelsey in the 200 medley relay, Banks in the 200 individual medley and 100 breakstroke, and Schutte in the 100 backstroke. "They're poised to go to the next level," said head coach Ashley Schutte.

• Honored the MCHS team that participated in the Indiana State Quiz Bowl competition including Devin Zhang, captain, Jacob Daghir, Emily Studebaker, Neel Mistry, Jace Singer, Sonny Koren, Annie Zhang, Harrison Hall, Owen Schmidt, Jack Heckler and Jackson Schwartz. Quiz Bowl sponsor Cortney Arrowood praised the students for advancing to state competition and is hopeful they will advance even further in the future. "We've got a young team and we hope to go to state every year," she said.

• Recognized participants in the Backsack Program that provides a package of food each Friday to children in need so they don't go hungry during the weekend. The school corporation has partnered with Madison Presbyterian Church and the House of Hope for the program which began the year helping 29 students and now assists 127 students.

Connie Huntington, who is leading the effort, thanked Studebaker "for caring about these kids and helping to get this program started and the school board for supporting it." She also praised the teachers for recognizing students who need help. "I have often thought about these kids because we don't know who they are, but I wonder, if in the years ahead that they will think back, and pay it forward. Thank you for giving us this opportunity to serve. This is a privilege to us to be a part of something in which we can help someone else."

PETS OF THE WEEK

The Madison-Jefferson County Animal Shelter currently has a number of dogs and cats and kittens available for adoption.

Pumpkin is a 5-year-old Rottweiler shepherd mix. She's very loving and believes she's a lap dog, but she's medium sized gal. She would rather get scratches than toys and treats.

Bruno is a younger small to medium terrier mix that will need obedience training. He's spunky and loves to run and play and is very sweet and loving, but he doesn't have any manners.

Both dogs have been neutered and have had their rabies vaccinations so their adoption fee is $100.

Please visit sisaveapet.com for a list of available pets ready for adoption. If you don't see what you're looking for there, make and appointment to see who is waiting to get neutered and vaccinated and preadopt. If you still don't see what you're looking for, ask about the waiting list to be put in contact with someone waiting to relinquish their pet to the shelter.

The shelter remains open by appointment only on Wednesdays, Thursdays and Fridays from 11 a.m. to 3 p.m. and Saturdays and Sundays from noon to 1 p.m. To schedule an appointment, email the shelter at animal.shelter39@jeffersoncounty.in.gov or call 812-273-1788.

The shelter's new adoption policy requires that all animals be spay/neutered and have their rabies vaccination before they can leave the facility. Animals that haven't been neutered and vaccinated can be pre-adopted but they will remain at the shelter until their surgery is completed. Adoption fees have also changed with dogs set at $100 and cats $80.

Those with missing pets can call or email a complete description of the pet, when and where it was last seen, the owner's name and contact information, and a picture of the pet. Pets are held for three days before they are made available for adoption. Animals should not be abandoned outside of the shelter or dropped off at the shelter after hours. For animal control issues in Madison, call 812-265-3347. For animal control issues in Hanover and Jefferson County, call 812-265-2648.

Farmers
Bank of Milton
Our bank has recently become aware of another pandemic . . . the significant increase in fraud and identity theft. Please be vigilant about guarding your personal information. The least little information a caller or email can gather from you may open all your financial records for criminals to access your records and your finances.
If you get a call from someone that you're not expecting, verifying your social security number and account numbers at ANY institution, you should hang up immediately and call your financial institution. Don't share or verify any of your personal information with them. You're not being rude, you're being careful!
The Farmers Bank of Milton partners with a third party to verify suspicious activity and possible fraud. You may receive a call verifying past transactions. They will only ask yes and no questions about your purchases. They will NEVER ask for personal information such as social security numbers and account numbers. When in doubt call your bank. If they're like us, they should be happy to answer your questions, verify your banking information and offer sound advice.
